

CONTENTS

- A. Šlepetienė, Ž. Kadžiulienė, D. Feizienė, I. Liaudanskienė, K. Amalevičiūtė-Volungė, J. Šlepetys, A. Skersienė, A. Velykis, K. Armolaitis.** The distribution of organic carbon, its forms and macroelements in agricultural soils291
- X. Wu, Y. Zhang, P. He, X. Huang, K. Huang.** Effects of tillage methods on senescence and grain filling characteristics of Tartary buckwheat301
- A. Liatukienė, V. Ruzgas, Ž. Liatukas, R. Skuodienė.** The response of *Medicago sativa* to mobile aluminium toxicity at seedling stage309
- K. Amalevičiūtė-Volungė, A. Šlepetienė, B. Butkutė.** The suitability of perennial grasses for combustion as influenced by chemical composition and plant growth stage317
- V. Danytė, A. Gorash, A. Liatukienė, Ž. Liatukas.** Trends changes of oat genotypes grown in Lithuania323
- A. Aleliūnas, K. Jaškūnė, G. Statkevičiūtė, G. Vaitkevičiūtė, G. Brazauskas, R. Armonienė.** Transcriptome changes triggered by a short-term low temperature stress in winter wheat329
- Z. Miladinov, S. Balesevic Tubic, J. Crnobarac, J. Miladinovic, P. Canak, V. Djukic, K. Petrovic.** Effects of foliar application of solutions of ascorbic acid, glycine betaine, salicylic acid on the yield and seed germination of soybean in South Eastern Europe conditions.....337
- M. Stojanović, I. Petrović, M. Žuža, Z. Jovanović, Đ. Moravčević, G. Cvijanović, S. Savić.** The productivity and quality of *Lactuca sativa* as influenced by microbiological fertilisers and seasonal conditions345
- S. Topkaya, C. Desbiez.** Molecular characterization of Cucurbit aphid-borne yellows virus (CABYV) affecting cucurbits in Turkey353
- M. Seidenglanz, R. Bajeroová, P. Kolařík, E. Hrudová, J. Havel, J. Tánčík, M. Ruseňáková, P. Bokor, F. Kocourek, J. Stará, L. Víchová, J. Šafář.** The correlation between the susceptibilities to lambda-cyhalothrin and tau-fluvalinate in Czech and Slovak pollen beetle populations359
- N. Uselis, J. Viškelis, J. Lanauskas, M. Liaudanskas, V. Janulis, D. Kviklys.** Planting distance affects apple tree growth, fruit yield and quality367
- A. Ezzat, A. R. El-Sherif, D. Elgear, S. Szabó, I. J. Holb.** A comparison of fruit and leaf parameters of apple in three orchard training systems373
