

CONTENTS

| | |
|---|-----|
| J. Arbačiauskas, A. Masevičienė, G. Staugaitis, L. Žičkienė, D. Šumskis, Z. Vaišvila. The influence of long-term fertilisation on phosphorus dynamics in the soil..... | 195 |
| G. Staugaitis, K. Poškus, Z. Brazienė, V. Paltanavičius. Optimization of nitrogen fertilisation of winter wheat | 203 |
| S. Zhang, Y. Zhu, H. Ni, Q. Yue, L. Su, X. Sun, K. Li, S. Liu, X. Liu, L. Zhao. The biocompatible soil amendment boosts the winter wheat yield and modulates soil microorganisms under saline-alkaline stress | 209 |
| P. Alaboz, O. Dengiz, S. Demir. Barley yield estimation performed by ANN integrated with the soil quality index modified by biogas waste application | 217 |
| A. Litvinovičius, A. Lavriščevas, O. Pavlova, V. Bure, E. Saljnikov. Leaching of strontium from <i>Albic Retisol</i> limed with Sr-containing industrial waste | 227 |
| H. Sammama M. El Kaoua, D. Hsissou, S. Latique, K. Selmaoui, M. N. Alfeddy. The impact of wheat and faba bean intercrop on the competitive interactions, grain yield, biochemical parameters and mineral content of leaves | 233 |
| G. Šidlauskaitė, M. Toleikienė, Ž. Kadžiulienė. Productivity potential of three tetraploid ryegrass cultivars and their mixture in new swards with clovers | 241 |
| M. Galytska, M. Kulyk, D. Rakhmetov, V. Kurylo, I. Rozhko. Effect of cultivation method of <i>Panicum virgatum</i> and soil organic matter content on the biomass yield | 247 |
| A. Taranenko, M. Kulyk, M. Galytska, S. Taranenko, I. Rozhko. Dynamics of soil organic matter in <i>Panicum virgatum</i> sole crops and intercrops | 255 |
| M. Sunusi, Z. Wang, Y. Tsago, J. A. Eshaq, J. Liu, A. Khan, Z. Chen, C. Shi, X. Jin. Fine mapping and candidate analysis of <i>Osgl</i> : a gene regulating grain shape and quality in <i>japonica</i> rice | 263 |
| S. Radičević, V. Ognjanov, S. Marić, G. Barać. The effect of genotype and temperature interaction on pollen performance in the pistils of autochthonous sour cherry cultivar 'Feketička' | 271 |
| M. Lacko-Bartošová, L. Lacko-Bartošová, P. Konvalina, E. Matejková, D. Bieliková. Rheological dough properties of organic spelt and emmer wheat for assessment of bread making quality | 279 |
